SECTION 4 – FIRST AID MEASURES

| | |
|--------------------------------------|--|
| Scheduled Poisons | Poisons Information Centre in each Australian State capital city or in Christchurch, New Zealand can provide additional assistance for scheduled poisons. (Phone Australia 131126 or New Zealand 0800 764 766). |
| First Aid Facilities Required | Ensure there is access to eye washes. |
| Inhalation | Remove to fresh air away from exposure. Obtain medical attention if symptoms occur. |
| Skin contact | Wash skin with plenty of water. Seek medical advice (e.g. doctor) if irritation, burning or redness develops. Seek medical advice (e.g. doctor). |
| Eye contact | Immediately irrigate with copious quantities of water for at least 20 minutes. Eyelids to be held open. Seek medical advice (e.g. ophthalmologist) if symptoms persist. |
| Ingestion | Do NOT induce vomiting. Do NOT attempt to give anything by mouth to an unconscious person. Rinse mouth thoroughly with water immediately. Give water to drink. If vomiting occurs, give further water to achieve effective dilution. Seek urgent medical advice (e.g. doctor). |
| Advice to Doctor | Treat symptomatically. All treatments should be based on observed signs and symptoms of distress of the patient. Poisons Information Centre in each Australian State capital city or in Christchurch, New Zealand can provide additional assistance for scheduled poisons. |

SECTION 5 – FIRE FIGHTING MEASURES

| | |
|-----------------------------------|---|
| Fire and Explosion Hazards | Non flammable. |
| Extinguishing Media | Use an extinguishing media suitable for surrounding fires. |
| Fire Fighting | Keep containers exposed to extreme heat cool with water spray. Fire fighters to wear self-contained breathing apparatus if risk of exposure to products of combustion or decomposition. |
| Flash Point | Non combustible |

SECTION 6 – ACCIDENTAL RELEASE MEASURES

| | |
|-----------------------------|---|
| Emergency Procedures | For a major spill: <ul style="list-style-type: none">• Stop leak if safe to do so.• Send messenger to notify fire brigade and police.• Tell them location, material quantity, emergency contact.• Indicate condition of vehicle and damage or injuries observed.• Warn other traffic. |
|-----------------------------|---|

SAFETY DATA SHEET

Product: Hand Cleaner with Grit

| | |
|-----------------------------|--|
| Occupational Release | Minor spills do not normally need any special clean-up measures. Rinse with water. In the event of a major spill, prevent spillage from entering drains or water courses. Wear appropriate protective equipment as in section 8 below to prevent eye contamination. Spilt material may result in a slip hazard and should be absorbed into dry, inert material (e.g. sand, earth or vermiculite), which then can be put into appropriately labelled drums for disposal by an approved agent according to local conditions. Residual deposits will remain slippery. Wash area down with excess water. If contamination of sewers or waterways has occurred advise the local emergency services. |
|-----------------------------|--|

SECTION 7 – HANDLING AND STORAGE

| | |
|-----------------|---|
| Handling | As with any chemical, avoid excessive personal contact. Wear eye protection when risk of exposure occurs. Avoid contact with incompatible materials. When handling, DO NOT eat, drink or smoke. Keep containers closed at all times. Avoid physical damage to containers. Always wash hands with water after handling. Work clothes should be laundered. Launder contaminated clothing before re-use. |
| Storage | Store in a cool, dry, place with good ventilation. Avoid storing in aluminium and light alloy containers. Keep containers closed – check regularly for leaks. |

SECTION 8 – EXPOSURE CONTROLS AND PERSONAL PROTECTION

| | |
|--------------------------------------|---|
| Control parameters | |
| Occupational Exposure Limits | No exposure standards have been established for the mixture. However, over-exposure to some chemicals may result in enhancement of pre-existing adverse medical conditions and/or allergic reactions and should be kept to the least possible levels. |
| Control parameters | |
| Biological Limits | No biological limits allocated. |
| PERSONAL PROTECTION PPE | |
| Ventilation | No special requirements. |
| Personal Protective Equipment | Use good occupational work practice. The use of protective clothing and equipment depends upon the degree and nature of exposure. Final choice of appropriate protection will vary according to individual circumstances i.e. methods of handling or engineering controls and according to risk assessments undertaken. The following protective equipment should be available; |
| Eye Protection | None required for typical hand washing applications as per label directions. The use of safety glasses with side shield protection, goggles or face shield is recommended to handle in quantity, cleaning up spills, decanting, etc. Contact lenses pose a special hazard; soft lenses may absorb irritants and all lenses concentrate them. |
| Skin Protection | None required for typical hand washing applications as per label directions. Overalls, apron, work boots and elbow length gloves are recommended (as per AS/NZS 2161, or as recommended by supplier) to handle the concentrated product in quantity, cleaning up spills, decanting, etc. |
| Protective Material Types | Material suitable for mild detergent contact – Butyl rubber, Natural Latex, Neoprene, PVC, and Nitrile. |
| Respirator | None required for typical hand washing applications as per label directions. |
